

**Dr. Miles' Nervine**  
A REMEDY FOR THE  
Effects of Tobacco.

THE excessive use of tobacco, especially by young men is always injurious and undoubtedly shortens life materially. Mr. Ed. C. Ebsen, compositor on the Contra-Costa News, Martinez, Cal., writes: "I have used Dr. Miles' Restorative Nervine and received much benefit from it. I was troubled with nervousness, dizzy spells and sleeplessness, caused by the use of tobacco and stimulants. I took Dr. Miles' Nervine with marvelous good results, allaying the dizziness, quieting the nerves, and enabling me to sleep and rest, proving in my case a very beneficial remedy." Dr. Miles' Restorative Nervine is especially adapted to restoring the nervous system to its normal condition under such circumstances. It soothes, heals and strengthens.

**UNITED STATES NAVY**

its increase Much More of a  
Necessity Than That  
of the Army.

**REAR ADMIRAL SAMPSON**

Writes Entertainingly to the New York Independent on the Subject. All Our Possible Wars in Future Will Be Naval Wars and What We Need Is Ships and Still More Ships.

New York, June 7.—The Independent this week will contain an article by Rear Admiral Sampson on the United States navy, in which he says: "I have long believed that the navy of the United States is not adequate to the needs of the nation, and, in spite of our victories, the events of the past year have tended strongly to confirm the view I held before the war began. For an army increase I fail to see the necessity. It is hardly conceivable that we could use a large army except for force of foreign conquest, which the sentiment of our country would not permit. No power, excepting Great Britain, could hope to attack us successfully upon the land. No two powers combined could hope to effect anything against us by sending an army to this country. "Three thousand miles of water protect us from all except one possible enemy—Great Britain—who has of late shown unmistakably that she desires a permanent peace and the closest friendship. Her attitude is all that could be desired. I do not believe that there is any room for doubt as to the good faith

REAR ADMIRAL SAMPSON.

of the English. They really wish our friendship and are prepared to make sacrifices to secure it.

"Foreign armies, therefore, do not constitute a danger to this country. The possible wars which confront us are naval wars, and in order to wage them successfully we need more ships. I believe that we should have at least twice as many ships as our navy at present contains. Whether or not we desire to have it so, the fact is we have a great change in our position among the nations. They have gained a new estimate of us and have put us in the front rank of the powers whose voices decide questions of world politics. At the same time we have greatly extended our coast line, and have undertaken the government of large and distant territories. We have become an Asiatic power and cannot avoid the responsibilities of such a position. We have great interests in the Pacific ocean and must be prepared to cope with any who are disposed to deny our rights there. To safeguard our interests, to maintain our position, to speak with the authority that becomes us, we need ships, and still more ships. "If our easy victories over the fleets of a weak naval power fill our people

"Our boy has taken three bottles of Dr. Pierce's Golden Medical Discovery for St. Vitus's Dance," says Mrs. E. A. Bender, of Keene, Coshocton Co., Ohio. "He was very nervous and constantly jerking and twitching, but now he is as steady as anyone; in fact, seems entirely cured. He thinks a great deal of Dr. Pierce. As a cough remedy and blood-purifier there is nothing better."

IT IS JUST THE RIGHT MEDICINE FOR A COMPLETE BRACING UP.

with the belief that we have now a navy that is large enough for all our needs, then those victories will have done us harm instead of good. I believe in harbor defenses. Every important harbor on the coast should possess its own local defenses, which only determined attack of the enemy could overcome.

"We have much still to learn about modern warships. They are as yet in the experimental stage. My own idea is that the naval increase should be made by building more vessels of the New York type, and that greater speed and coal capacity must be secured, even though it is necessary to sacrifice some armor thickness in order to secure them. Our need of swift armored cruisers transcends other naval need.

"The present is a good time to press the needs of the navy upon the country which will soon be quivering from end to end with the emotions produced by the reception of the hero of Manila. The extraordinary and widespread disposition to do him honor can scarcely be otherwise than pleasing to all officers of the navy. No man could possibly have done more thoroughly than Dewey what he set out to do, and that is the test. His fame is secure."

**TWO BABIES**

Killed by a Fast Freight Train—Were Blown on the Track. Rockford, Ill., June 7.—Two babies, aged 1 and 3 years, children of Mrs. Carl Detloff of Poplar Grove, were instantly killed yesterday. The mother left their carriage on the depot platform while she stepped into the station. A gust of wind blew it in front of a fast coming freight train, mangle both little ones.

**MANILA NEWS**

Lieutenant Fred W. Pearce Suicides While Under Arrest. Manila, June 7.—Lieutenant Fred W. Pearce of the Sixth United States artillery committed suicide this morning. He came from Iloilo a week ago on leave, but lingered here beyond the limit and failed to reply to repeated telegrams from his commander.

Yesterday he was put under arrest on his commander's order. This morning another officer called to see him, when he suddenly pulled a revolver from under his pillow and shot himself through the head. His friends say his mind was affected by a recent stroke.

A Spanish paper asserts that Colonel Arguelles, one of the two members of the original Filipino military commission, who were placed under arrest last month after returning to Luna's camp from their conferences with the United States commissioners, has been court-martialed and sentenced to 12 years imprisonment for "friendship displayed toward the Americans."

The Second Oregon volunteer regiment has returned to barracks in Manila and is preparing to return to the United States. The order to sail in a few days will shortly be issued.

The First California regiment will be relieved by a regiment of regulars at an early date and will follow the Oregonians. It is intended to send the First Colorado and the First Nebraska regiments next.

**AUTHORITIES PUZZLED**

Do Not Know What to Do With the Troops at Camp Presidio.

San Francisco, June 7.—The question of transportation for troops destined for the Philippines is worrying military authorities greatly. Casuals are arriving here by the hundreds, many regularly organized companies are already here awaiting transportation and there are one or two regiments on the road to this city. The steamers Zealandia and City of Puebla are here, but have not been rechartered, and the transports Pennsylvania and Conemaugh are due to arrive in a few days, but if all of these vessels are pressed into service the number of men in camp at the Presidio will be reduced but little. What to do with this great body of men puzzles the local department, and it is believed that some of the old transports which have been returned to commercial life will again be pressed into the service of the government.

**CAPTAIN DREYFUS**

Radiant With Joy on Receiving Official Notice of Revision.

Fort de France, Island of Martinique, June 7.—When the dispatchboat Goele, bearing the superintendent of the prison and the commander of marine artillery, who were designated by the French government to notify Dreyfus of the revision of his trial, arrived from Cayenne at the Isle du Diable, Dreyfus was waiting on shore. Although endeavoring to maintain his selfpossession, he received the official intelligence with a countenance radiant with joy.

**KILLED WITH A SPADE**

Fatal Quarrel Between Two Illinois Farmers Over a Drain.

Peoria, Ill., June 7.—Harry Thurman, a farmer living near London Mills, killed Alex. Hammond, a farmer whose land adjoins, with a blow of a spade. Both men were digging trenches to let the water out of their fields, and a dispute arose regarding the direction the water should be turned. Thurman is held without bail to await action of the grand jury, and P. E. Emory as an accuser.

Wife of a Prominent and Wealthy Chicagoan Takes Her Life.

Chicago, June 7.—Mrs. Belle Marshall Roloson, wife of R. W. Roloson, for 25 years a prominent and wealthy member of the board of trade, committed suicide at her home in this city yesterday by shooting herself in the right temple. Death resulted almost instantly. Mrs. Roloson had for some time been a sufferer from nervous prostration. She was a native of Louisville.

Canadian Premier's Peculiar Statements Regarding the Alaskan Boundary.

**WASHINGTON OFFICIALS**

Say They Never Heard of the Proposition to Establish a Customhouse on Dalton Trail and to Regard it as the Provisional Line—Other Gossip of the Nation's Capital.

Washington, June 7.—The statement made in the Canada house by the premier, to the effect that the Canadian government has proposed to the Americans to establish a customhouse on the Dalton trail and regard it as marking the provisional boundary there, causes great surprise here, the officials asserting that this is the first that they have heard of any such proposition. They admit the accuracy of the statement that for the past two years, by tacit agreement, the customshouses on the Chilkoot and White passes have been recognized as marking the provisional boundary, but know nothing of the Dalton trail. The last Canadian proposition, it is said, embodied a vague proposition to locate a provisional boundary by some unrecognized mountain peaks, but contained no reference to the Dalton trail customshouses.

**DISSATISFACTION**

Over the Continued Postponement of the Venezuela Arbitration Meeting.

Washington, June 7.—There is considerable dissatisfaction in official and diplomatic circles over the continued postponement of the British-Venezuelan arbitration proceedings, as the delay causes personal inconvenience to Chief Justice Fuller and Justice Brewer, who are arbitrators; ex-President Harrison and ex-Secretary Tracy, who are counsel, as well as to the British and Venezuelan officials now gathered in Paris. The postponement was caused by Russia's naming Mr. Mertens, who is on the Venezuelan commission, as one of the Russian delegates at The Hague conference. Although most of the American and Venezuelan officials are now in Paris, they are unable to proceed with the work, and it is said that there is doubt whether Mr. Mertens will be free by the 25th inst., the day to which the court adjourned its meeting.

**New Spanish Minister Entrained.**

Washington, June 7.—Secretary of State and Mrs. John Hay last night entertained the new Spanish minister and the Duchess d'Arros at a brilliantly appointed dinner at which were present several of the most prominent members of the diplomatic corps and a few personal friends of the host and of the guests of honor. It was the first appearance of the minister in official society here since his appointment, and a particular effort was made that this initial entertainment should be a pleasant one. The decorations were in green and white, an immense bed of orchids filling the center of the table.

**Not Entitled to Extra Pay.**

Washington, June 7.—L. P. Mitchell, the assistant comptroller of the treasury, holds that if an enlisted man in the regular or volunteer army enlisted subsequent to the declaration of war for the war only, and afterwards, before the war is over, seeks and obtains his discharge for his own convenience and not on account of ill-health or disability, he is not embraced within the meaning of the act of March 3, 1899, and is not entitled to the extra pay provided by it.

**Bishop Hurst's Affairs.**

Washington, June 7.—A deed recorded here, by which Bishop John F. Hurst of the Methodist Episcopal church transferred through an intermediary to his wife, Ella Root Hurst, their fine home in this city, has caused a great deal of comment, it being reported that the transfer was preliminary to a legal separation. Bishop Hurst is out of the city, and his attorney said he had nothing to say about the matter. Mrs. Hurst has been in Europe for two years.

**Can Purchase Their Outfit.**

Washington, June 7.—The regulations allowing the volunteers to purchase the arms and equipments which they carried during the Spanish war will be continued in the case of the volunteers returning from Manila. They may purchase the Springfield rifles at \$10 each and the revolver and equipments at the same price, while the other portions of the outfit are sold at cost.

**GOMEZ'S FAREWELL**

How His Manifesto Was Received by His Friends and Opponents.

Havana, June 7.—The farewell manifesto of General Gomez is the principal topic of conversation among Americans and Cubans of all shades of politics. The Americans, for the most part, consider it an affecting address, expressing the real views of the old patriot, and also his sincere intention to retire from public life. His Cuban admirers say the address will rank among the most famous in history.

His opponents, especially the members of the former military assembly, insist that he has no intention to retire for more than a few weeks and that his real object is to gain public sympathy.

**Formerly of Muncie, Must Stand Trial For Alleged Fraud.**

Springfield, Ill., June 7.—Judge Allen, in the United States circuit court, yesterday overruled the motion to quash the indictment against C. N. Wilcoxon of Decatur, charged with using United States mails for a scheme to defraud, and the trial of the case commenced today. Wilcoxon is alleged to have induced W. L. Ferguson, superintendent of the City Railway Company at Decatur, by means of letters written by him and purporting to come from J. M. Case, president of the Richmond and Eaton Traction Company of Muncie, Ind., a propositions company, to give up his position at Decatur and accept one with the Richmond and Eaton company, Wilcoxon, who was then residing at Muncie, and who had heretofore unsuccessfully attempted to secure Mr. Ferguson's place at Decatur, being appointed to fill the vacancy.

**IMPORTANT**

Decision by the Supreme Court in a Natural Gas Suit.

Indianapolis, June 7.—The supreme court has just rendered an important decision in the case of the state on the relation of the prosecuting attorney against the Portland Gas and Oil company. It reversed the lower court and held that any public corporation which enters into a combination with other corporations to destroy competition and thereby increase the price of the article dealt in to the people to an extent that is injurious to the public becomes by so doing at once liable to the enforced forfeiture of its franchise.

Two natural gas companies that had secured the right to the use of the streets of Portland combined together and agreed upon prices to charge for gas, further agreeing not to furnish gas to any person who had been a customer of the other company. The citizens brought suit, but the lower court ruled in favor of the companies.

**Postalclerks' Convention.**

Indianapolis, June 7.—The National Association of Railway Postalclerks began in this city this morning. The officers of the association arrived yesterday and met with the executive committee. Of the 8,000 postalclerks employed on railroads, about 5,000 of them belong to the association. There are 11 divisions, the fifth being composed of Ohio, Indiana, Kentucky and Tennessee.

**NEW METAL SPINNER**

Device That Will Work Important Changes in Iron Manufacturing. A Cleveland, June 7.—James H. Bevington, a Cleveland inventor of note, has completed a device for spinning metal which promises to work important changes in various lines of metal manufacturing. The principle on which the discovery is based is extremely simple. The metal that is spun is in tubular form, and is placed in a lathe, which turns at the rate of 1,800 revolutions a minute. In a moment's time the metal becomes hot, and softens from the friction, and can then be shaped by the operator, according to his wishes.

The tool, which consists of hard steel jaws touching on either side of the revolving tube, can be readily gauged to any desired width, and the softened metal may be spun down by means of pressure to any size or shape, so long as a circular form is retained.

**Jury Secured.**

Toledo, June 7.—A jury was secured yesterday in the murder case of Paul Zeltner, who is being tried for the murder of Attorney Westenhaver. The defense intimated in the opening address to the jury that a defense of manslaughter would be their position. Attorney Bloom, who was present at the shooting, was the first witness examined.

ROYAL BAKING POWDER CO., NEW YORK.**FITZSIMMONS-JEFFRIES.**

Fight in New York May Be Stopped By the Police.

New York, June 7.—Chief of Police Devery last night gave out the following statement as to the action he will take in case the Fitzsimmons-Jeffries fight Friday night resolves itself into a "brutal slugging match":

"From certain published statements of experts on prize ring and boxing matters, and from various sources, it would appear that the two would-be pugilist champions who are down for a sparring contest at the Coney Island Athletic club on Friday night, or their backers or managers, intend to have, under the guise of the Horton law, not a sparring contest, but a genuine old-time slugging match or prize fight. If no such slugging match is intended, then the inference is that these statements and impressions are spread for the sole purpose of gulling and imposing upon the public.

"Considering the parties to the contest, their respective weights, 210 and 156 pounds, the other attending circumstances and conditions, it is almost a physical impossibility for the two individuals referred to to carry on a lawful contest for points on the coming occasion. The very nature of things tends to an out and out prizefight.

"I shall be present at the contest, and, as chief of police, I shall personally see to it that the letter and the spirit of the law relative to such contests are obeyed, and that there will be no slugging nor heavy hitting; nothing but a clean cut, lawful sparring exhibition for points. Any person who permits himself to be gulled or imposed upon by thinking otherwise will find himself very much mistaken. It will be well for the public to understand that the first heavy blows struck will mark the end of the contest."

**BANK SWINDLED.**

Two Young Men Play a Slick Game On a Louisville Institution.

Louisville, Ky., June 7.—The German Insurance bank of this city was victimized out of \$5,000 Monday afternoon by two well-dressed young men, who worked a neat game. Just before the hour for closing the bank, the assistant cashier of the German Insurance bank was called to the telephone and asked if he could accommodate the Citizens' National bank with \$5,000 in currency. On being answered in the affirmative, the inquiring party said he would send two men around to get the money. Shortly afterward two young men appeared at the bank with a check for \$5,000, bearing the supposed signature of the cashier of the Citizens' National bank. The assistant cashier, suspecting nothing wrong, counted out the money to the young men, who were profuse in their thanks as they accepted it. When the check reached the clearing house yesterday it was discovered to be a forgery. The police are working diligently on the case.

Solomon City, Kan., June 7.—A 14-year-old girl named Walker, who lives with her parents near here, is suffering from a terrible affliction. The girl belongs to a respectable family and they have spent a great deal of money having her treated. A few years ago they took her to the Pacific coast and placed her under the care of a specialist, but without results.

WEDNESDAY, JUNE 7 1899.

The Indiana congressional delegation, or rather the nine republicans of the delegation have declared for Henderson for Speaker.

ADMIRAL DEWEY has sailed from Hong Kong on his flagship Olympia. It will probably be three or four months before he reaches home.

It seems strange that so many electrical companies were given no opportunity to bid on a plant for Seymour. Such are the complaints now coming in from construction companies.

The North Vernon Sun says John Overmyer was "signally honored" at the 16 to 1 meeting at Louisville. The fact is John is just getting all the prestige and recognition he can to help him in his congressional race. Since he resigned the presidency of the North Vernon National Bank and has no active duties to perform as a banker he has more time to look after his political fences.

The voters of the city are to be given an opportunity to express their preference between one of the propositions of Mr. Geiger and that made by the home company. The matter of leaving the question in some shape to the people was decided on at the executive session of the council more than a month ago. The Republican hopes that the matter will be settled as soon as possible for there has already been too much expensive delay.

**Commissioner's Court.**  
Commissioners Court met Monday morning in their regular June term with John B. Burrell, Geo. W. Gibson and F. Wm. Buhner, present.

The term will be a very busy one and occupy the full time allotted.

The petition of Wm. H. Shields et al. to have John J. Kester's addition to the town of Rockford vacated was granted by the board.

The Board received the Seymour and Dudleytown gravel road from the contractor D. H. Fatout and made it a part of the free gravel road system of the county.

Henry F. Bruning, recorder..... 700.60

**State S. S. Convention.**  
The State Sunday School convention will be held at Columbus, Bartholomew county, June 13-16 inclusive. Every Sunday school in Jackson county is expected to have or at least should be expected to have one or more representatives there, that each school may receive the benefits to be derived from the convention. This is the first time the workers of Jackson county have had the convention so near and no one should stay away.

Half fare rates on all railroads and free entertainment after arriving at Columbus, except dinner and supper which will be served at 15c each to all attending the convention. Let Jackson county send a large delegation.  
Yours, C. B. Davis, Co. Sec.

**State S. S. Convention.**  
The State Sunday School convention will be held at Columbus next week. The first session will be called to order Tuesday noon. Every Sunday school in the state is entitled to a delegate to this convention. Certainly Seymour, only eighteen miles away from this state meeting should send a large delegation. Columbus is liberal with her patronage when we invite her people to come this way and we should not do less than we would expect from them.  
Excursion rates are granted. The convention lasts until Thursday.

# THE COMMITTEE'S REPORT.

Electric Light Question to be Submitted to a Vote of the People.

The city council met in special session last night to receive the report of the special light committee on the propositions submitted in response to advertisements. The mayor and all councilmen were present.

The committee's report was as follows:  
To the mayor and council.

Gentlemen—  
"We the undersigned members of the special light committee to whom was referred the bids for electric light beg leave to report as follows: After examining the bids of the Wayne Electric Company of Ft. Wayne and that of Gates & Randolph Electric Company, of Chicago, accepted, proposition No. 1, of the Wayne Electric Co. The total cost of the plant of one hundred light capacity is \$46,500 for the municipal ownership plant. (This is exclusive of the cost to the city of operating the plant which Mr. Geiger puts at \$47,500 in ten years.—Eds.)

The Seymour Gas Light and Coke Co.'s proposition being the only proposition under the franchise plan, the committee accepted that proposition as the franchise plan. The cost to the city under this plan will be \$65,000 for ten years.

Respectfully Submitted,  
L. W. BARTLETT,  
JAS. DEKOLYER,  
J. NEW, GIBSON.

Miller moved to receive report and defer further action until next meeting. Motion lost by a vote of 7 to 3.  
Price moved that the report be received and placed on record and that the special light committee to make arrangements for an election on these propositions, and report to the next council meeting. A subordinate motion authorizes this special committee to assume all preparations for the election except naming the election boards. After all the councilmen had been given a chance to discuss the question and most of them had admitted that they were ready to assume responsibility of voting on the main question the motion was adopted by a vote of 7 to 3. Ayes—Bartlett, Binder, D. Golyer, Gibson, Huber, Price and Shields. Noes—Brethauer, Miller and Shepard.

Council adjourned after being in session forty minutes.

# Sick Women Advised to Seek Advice of Mrs. Pinkham.

[LETTER TO MRS. PINKHAM NO. 94863]  
"I had inflammation and falling of the womb, and inflammation of ovaries, and was in great pain. I took medicine prescribed by a physician, but it did me no good. At last I heard of Lydia E. Pinkham's Vegetable Compound, and after using it faithfully I am thankful to say I am a well woman. I would advise all suffering women to seek advice of Mrs. Pinkham."—Mrs. G. H. CHAPPELL, GRANT PARK, ILL.

"For several years my health was miserable. I suffered the most dreadful pains, and was almost on the verge of insanity. I consulted one of the best physicians in New York, and he pronounced my disease a fibroid tumor, advising an operation without delay, saying that it was my only chance for life. Other doctors prescribed strong and violent medicine, and one said I was incurable, another told me my only salvation was galvanic batteries, which I tried, but nothing relieved me. One day a friend called and begged me to try Lydia E. Pinkham's Vegetable Compound. I began its use and took several bottles. From the very first bottle there was a wonderful change for the better. The tumor has disappeared entirely and my old spirits have returned. I heartily recommend your medicine to all suffering women."—Mrs. VAN CLEFT, 416 SAUNDERS AVE., JERSEY CITY HEIGHTS, N. J.

**WINE OF CARDUI**

**HEALTHY OLD AGE.**

LARUE, BENTON CO. ARK., Aug. 4.

I am 46 years old and have been suffering with Change of Life. I had flooding spells so bad that none thought I could live. My husband got me Wine of Cardui and it saved my life. I am like another person since taking it.

MRS. E. B. TOWNSEND.

**Wine of Cardui**

It is the devout wish of nearly all people to live to a ripe old age. None of us want to die young. This universal desire can be realized if care be taken of the health in early and middle life. A little precaution then will add many years to our existence. Death can be kept away a long time. Happy, healthy old age will be the lot of the woman who promptly corrects the ailments which afflict her sex. In youth, Wine of Cardui will take the female child safely over the dividing line between girlhood and womanhood. As a wife she needs it to help her through the trials of pregnancy and childbirth with as little discomfort as possible. At the Change of Life it will help her over the dangerous place that appears in her pathway between 40 and 50. Then will come many years of truly blissful existence. She will grow old slowly and gracefully. To the last she will preserve that charm and beauty which are always characteristic of perfectly healthy grandmothers. It is for women alone to decide whether they will be healthy or sick. The remedy for their sickness is close at hand.

**Beautiful Indian Springs.**

This property has lately been secured by the Southern Indiana Hotel Co. The old hotel has been demolished and a new one is now in course of erection. This will be a magnificent stone structure with all modern improvements; but will not be ready this season.

There has always been more or less excursion business and parties who go there to enjoy the water. The dance hall, spring house, summer pavilion, bowling alley and club house have been left standing and may be used by excursionists and picnic parties.

To accommodate this business the Southern Indiana Railway will put in rates for excursion parties and picnic parties and has also arranged special Sunday train schedule, giving patrons along the entire length of the line an opportunity to spend the day at the Springs and return here the same evening.

The plaintiff maintains that he is church property; the property of the congregation as much as is the pastoral residence, and that, as such, he is exempt from taxation, the same as the parsonage. Owing to the number of ministers in the state who would be benefited if this novel plea could be sustained, the suit is of general interest.
